

Bid Items Application Update to Bid Item Listings - October 30, 2012

Iowa Department of Transportation -- Office of Contracts

+++++
Bid items for Bid Items Application have been updated.

- Beginning on page 2 is a summary of the updates to the bid item files.
- New items are effective immediately unless otherwise noted.
- Use of new items on projects let before the effective date will not be permitted.
- Items shown as omitted shall not be used on projects to be let after the Dec 18, 2012 letting.
- FYI: 'Spec' changes to existing bid items are not included in this notification.

+++++
Specifications for most bid items consist of five parts: 1) Description, 2) Materials, 3) Construction, 4) Method of Measurement, and 5) Basis of Payment. The Spec Codes defined below, and shown in the online [English Bid Item Description Book](#) and [Metric Bid Item Description Book](#), are used to identify a source(s) where typical specs for the bid item located. The specific source will depend on the actual use and application of the bid item.

The policy of the Office of Contracts is that the designer, of the projects let through the Iowa D.O.T. letting system, insures that all bid items have complete specifications.

Special attention is directed to the codes STD6, SP2, and PLAN that may use or need multiple sources. For many bid items with those codes, additional information is required. This could include entire specifications (all five parts) for a bid item, or modifications/changes/additional requirements to one or more parts of an existing specification. For most of those bid items, the specs could be included in the Item Reference Information or General Notes of the project plan. The designer is encouraged to use the Standard Specifications, Supplemental Specifications, etc. as resources for the proper language for any of the five spec portions for similar bid items.

Spec Code	Spec Source
STD	Standard Specifications - including General Supplemental Specifications
STD2	Standard Specifications - including applicable Supplemental Specifications
STD3	Standard Specifications - including applicable Supplemental Specifications or Standard Road Plans
STD4	Standard Specifications - including applicable Standard Bridge Plans
STD5	Standard Specifications - including applicable Standard Road Plans
STD6	Standard Specifications - including applicable Special Provisions or Project Plan
DS	Developmental Specifications
SS	Supplemental Specifications
SS2	Supplemental Specifications or Project Plan
SP	Special Provisions
SP2	Special Provisions or Project Plan
SBP	Standard Bridge Plans
SRP	Standard Road Plans
PLAN	Project Plan
PROP	Proposal Form

Bid Items Application Update to Bid Item Listings - October 30, 2012
